CHAPTER ONE

1.0 INTRODUCTION

1.1 Background

Pursuant to the provisions of Article 10 (2) (a) (b) and (c) of the Kenyan Constitution, Section 115 of the County Government Act,2012 and the Public Finance Management Act,2012 Section 207, the County Government is guided on citizen engagement on preparation of County Integrated Development Plan (CIDP) 2023-2027.

The CIDP 2023-2027 contain stakeholder's views on priorities programs and projects that meet the development aspirations of the people of West Pokot County for the next five years. The County Government of West Pokot organized for the public participation for CIDP with the public, development partners and stakeholders for consultative meeting held on the month of November ,2022 at scheduled wards and venue

1.2 Legal Framework

Sections 102(h), 104(1) and 108 of the County Government Act 2012, requires county governments to prepare 5-year County Integrated Development Plans which are the basis for appropriation of funds. Further, Section 104 (1) of the Act obligates the county governments to plan for the county and no public funds should be appropriated without a planning framework.

Article 1(2) of the Constitution of Kenya, 2010 states that all sovereign power belongs to the people of Kenya. It further states that people may exercise their sovereignty directly or through their elected representatives. After having already elected representatives, the people ought to directly exercise their sovereignty by being involved in democracy and governance processes at the national and county levels of government.

Article 10 (2) indicates that public participation is among the national values and principles of governance.

As per Article 174(c), the objects of devolution are to give powers of self-governance to the people and enhance their participation in the exercise of the powers of the State and in making decisions affecting them. Article 174(d) recognizes the rights of communities to manage their own affairs and to further their development.

Article 232(1) (d) provides for the involvement of the people in the process of policy making and part (f) provides for transparency and provision to the public of timely and accurate information. Fourth Schedule Part 2(14) stipulates that the functions and powers of the county are to ensure and coordinate the participation of communities and locations in governance at the local level. Counties are also to assist communities to develop the administrative capacity for the effective exercise of the functions and powers and participation in governance at the local level.

1.3 Specific Objectives of the CIDP III Public Participation

The main objective of CIDP (2023-2027) ward Public Participation were to;

- Collect data on development issues, priorities programmes and projects for the next five years from the Community/stakeholders and development partners.
- Get feedback/approvals from the Community on proposed programme by the County government including Proposed County flagship programmes
- Get priorities programmes and projects for ADP 2023/2024
- Align Governor's manifesto into CIDP (2023-2027) and BETA

1.4 Rationale for Participatory Budgeting

The rationale of Participatory Planning is based on the constitutional foundation which places sovereign power on the people of Kenya. It is this power that has been delegated to state actors at the national and county levels. This sovereignty must be respected and institutionalized in all processes of governance.

1.5 Process and Methodology

Step 1 – Training of CBEF Members, and Ward Administrators on CIDP public participation.

A joint training was held between all County Budget Economic Forum members, ward administrators, representative from County commissioner Office and a few representatives from the civil society to train them on 3rd generation guidelines for CIDP, remind the participants on need for public participation, minimum requirements for PB, Preview of tools for public participation and finally give each ward the opportunity to choose areas where public participation will take place in their wards and dates. These training achieved 3 things:

- a) Public participation work plan was approved by CIDP County Technical Team. A CBEF team leader, Economic planning Unit and technical officers were appointed for each team.
- b) Mobilization strategy was done and the area ward managers, area chiefs and their assistants and ward administrators were identified to help in mobilizing the public in the various identified dates. Mobilization was done for 2 weeks in a local radio station and national newspaper to ensure communities attend.
- c) Basic minimum requirements for PB agreed on i.e to be done in an open place, community to vote to choose their projects, choosing of representations from all sub locations and minority group, duration for mobilization.

Step 2 - Public Participation Process

This was done in all the 20 wards of the county. The process was led by the ward administrators, County Planning Unit, area MCA's, ward managers, chiefs and representative from office of County Commissioner. All projects status, ongoing projects in the supplementary budget was shared to the public and given the opportunity to react. All members of the public were invited including civil society groups. These meetings achieved the following:

1. A list of all their project submissions and priority projects; emphasis to be directed in completion and equipping the ongoing projects
2. Communities were requested to vote for the three most critical priorities.
3. All priorities, the first 3 projects selected were documented and signed by the area MCA, ward manager, chosen delegate and ass. Chiefs.

Step 3: Documentation of Reports from Wards.

CIDP secretariat co-ordinated the documentation of the entire field reports including projects and programme priorities for five years across all wards. With the support of technical teams from each department at the county and national level.

Public participation in progress

3.1 Plenary Issues

- a) Providing high quality planting materials including certified seeds and establishment of certified nurseries through farmer collectives/societies to increase productivity
- b) Bursary should be put as first priority
- c) Provide necessary infrastructure including markets, stalls, sheds, basic amenities, and cold rooms for value addition.
- d) Completion of Siyoi Muruny Water Project.
- e) Construct livestock markets' infrastructure in the form of abattoirs, slaughterhouses, and sale yards including the operationalization of Nasukuta Animal Abattoir.
- f) Drill Boreholes as well as water pans in arid areas of the County
- g) Cooperate social responsibility from Sebit Cement factory: County government to make sure the residents of Batei benefit from it
- h) Revival of Amolem Irrigation Scheme.
- i) Establish irrigation scheme in Suam River
- j) Construction of bridge in Sincholol, Kamla river and chelopoy foot bridge
- k) Repairing of Kalemnyang road and Kapchongir road
- l) High insecurity rate- fund peace initiatives
- m) Provision of five scholarships for needy students at each location
- n) Empower Masol Students associations to embrace education as an affirmative action
- o) Lack of Nurses at Takaywa dispensary
- p) Establishment of sub-locational committee that updates bursary database regularly
- q) Use of concrete electric poles and replaced to the wooden ones.
- r) Construction of Security roads: Talon-Tukumot road, Crosslight-Knyotwo road
- s) Creation of security/ police stations near the insecurity prone areas.
- t) The reluctance forest conservation due to poor leadership of the current Community Forest Association (CFA)
- u) Restore security in the borders of Elgeyo Marakwet, Baringo and Turkana Counties.
- v) Promoting value addition of mangoes to maximize earnings to the farmers as well as minimizing post-harvest losses through operationalization of Lomut Mango Factory.
- w) Introducing crop insurance to ensure farmers secure guaranteed minimum returns (GMR) from their produce
